

Team Overview

The Team of Miller Engineering and Hydropro bring a unique approach and experience to your industry. Utilizing membrane technology expertise, we provide value engineering, constructability, scheduling, cost estimating, and training which will save you significant capital while maintaining control over your project quality and delivery. We believe you will have a sense of security knowing that our experienced team will satisfy your needs as you request them.

Membrane Technology Water Purification For Irrigation Applications

TURNKEY GOLF COURSE IRRIGATION

**Miller
Engineering**

&

HYDROPRO, INC.

Our Focus

Our Team's primary focus has always been **You!** The systems we design are created to help you save time and money. All of the irrigation systems that we design require little, if any, special skills to help maintain and run these sophisticated systems. We also have a vast knowledge in designing these systems and the facilities that house them. This knowledge includes the delivery mechanism of design build, along with permitting, and construction management.

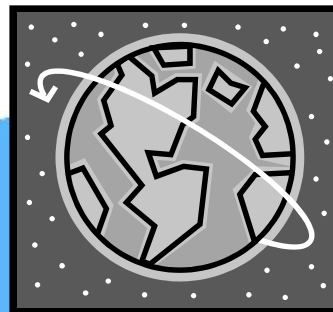

Our Team's secondary focus is **Efficiency!** These systems allow for maximum efficiency through reusable resources that do not require any connection to city resources -- thus saving you money, and allowing the system to pay for itself in a short amount of time.

Systems Worldwide

We Provide To You

- **Turnkey Service.** To save money and improve irrigation water quality for golf course and agricultural irrigation.
- **Proven Engineering.** Our reliable existing systems are excellent examples of what you will enjoy with our Team.
- **Construction Experience.** We have construction-managed almost every project in which we have been involved.
- **Design Engineering Expertise.** Our Engineers have decades of experience in membrane system design and supply.
- **Custom Equipment Supply.** We do not provide off the shelf systems and design specifically for your end-user requirements.
- **Feasibility Studies.** We evaluate your exact situation to guarantee you are not getting equipment or water quality and quantity that do not match your needs.

Project Sampling

- **The Breakers Hotel.** Palm Beach County, Florida
- **Gulfstream Race Track.** Gulfstream, Florida
- **Atlantis Resort and Paradise Island Utilities.** Nassau, Bahamas
- **Riffa Golf Course.** Manama, Bahrain
- **Jupiter Island Club.** Jupiter, Florida
- **Palm Beach Country Club.** Palm Beach, Florida
- **Everglades Club.** Everglades, Florida
